

Peeter Kehva

Candidate for election to the SPIBA
Industrial Committee

I 'm Estonian, but I was born in Leningrad and my mother tongue is Russian. I graduated from The Baltic State Technical University in 1997. After graduation from "VoenMech" I had worked at brewing company «Baltika», Bottling Department, for seven years.

Since 2004 I've been working for ZAO Smurfit Kappa Saint-Petersburg. I'm Facilities manager of a leading corrugated packaging company in NW RF, Bag-in-Box manufacturing. I'm responsible for company facilities, HSE, GR, etc.

I've started to participate in SPIBA's activity since the beginning of 2009. I have been working in SPIBA Environmental, Health and Safety, Industrial Committee for five years. I thank you all for your support in previous years.

Looking forward I see great opportunities within all of our committee areas. Be assured that I will maintain the values SPIBA to ensure a bright future together.

Sincerely

Peeter Kehva
